

# Help us Find a Family

## Top Tips to get Involved:

### Share our Message

We are always posting about Foster Care and fostering on our social media pages. Share our message onto your own profile, other pages and even community groups that you think might benefit from reading our content!

### Post Content

Use the images, videos and writing ideas that we have provide to you in the 'Find a Family' pack, to post on your own Facebook page. Don't forget to tag Lorimer Fostering and encourage your friends & family to share content too!

### Groups & Pages

Join the online fostering community by becoming a member of different groups and pages on social media. Make sure to tag Lorimer Fostering and recommend us in your conversations. You can even start some discussions about fostering on local community groups.

### Like, Comment & Share

Each and every like, comment and share goes a long way to helping us succeed in our mission. By engaging with our content, you are providing Lorimer Fostering with a platform to make a positive difference in young people's lives!

### Invite Others

When you visit the Lorimer Facebook page, there is an option to invite your friends, family and anyone else who you think will be interested in fostering. This is a great way to spread our message and encourage others to foster.
